15TH AMATEUR INTER-CLUB TEAM CHAMPIONSHIP

WELCOME IN CORTINA D'AMPEZZO

AMEDEO REALE,
PRESIDENT OF SCI18

Dear friends of the AICC,

It is a great honor for me and the Sci Club 18 to host the 15th edition of this prestigious international competition.

The Sci Club 18, since its foundation in 1930, has always been the promoter of many important challenges between clubs, the first of which dates back to 1936 on the snows of the Apennines at the Gran Sasso d'Italia, with the Swiss Academic Ski.

A lot of snow has fallen since then, we moved our headquarters to Cortina, dedicated our efforts to building a youth team among the first in Italy, but the passion for team challenges remains the same.

In our DNA, before victory, comes how victory is achieved.

We therefore have a sense of the challenge, but also and above all, the duty of warmly welcoming our friends from all over Europe.

Long live AICC, long live true friendship through the common passion of alpine skiing competitions !!

Amedeo Reale

President of the Sci Club 18

WELCOME IN CORTINA D'AMPEZZO

CLEEVES PALMER AICC PRESIDENT

This is the AICC's second visit to Cortina d'Ampezzo and of course the second time that SC18 has kindly hosted the Championship. The Cortina d'Ampezzo area is not only extremely beautiful but is steeped in winter sports history, having hosted The Winter Olympics in 1956, the Alpine World Championships in 2021 and it will jointly host The Winter Olympics with Milan in 2026.

SC 18 was founded in 1930 by 18 friends, hence the Club's name. The Club is incredibly active with a rich racing pedigree for all ages. When the AICC came to Cortina in 2010 the racing was superb, but the warm Italian welcome was even more special. For those who do not know the Dolomites, I suggest you come for a few extra days as the skiing areas are bountiful and the pink and gold sunset glows on the Dolomites unforgettable.

The SC18 team of Amedeo Reale, his brother Clemente, Umberto Pasqua along with the Club Secretary have been working hard ahead of our arrival next March and I know that everyone will join me in wishing them a happy and successful AICC Championship.

The AICC International Committee has been further strengthened in the last year as we now have Spanish representation. Jorge Bocca has introduced SC Alpi Pirineus La Molina (CEAP) to the AICC family, it will be fantastic to take the AICC to Spain later in the 2020's.

The goal of the AICC Championships is to further strengthen the warm relationships that exist between our ski racing Clubs. In the early days of ski racing there was considerable contact between the Arlberg Clubs and members often visited each other's Clubs to broaden their experience and make new friends. In the past few decades racing for amateur skiers has seen a renaissance and the AICC has certainly contributed to that.

The AICC is now mature, the format is settled, and I am delighted that the following Clubs are hosting the next Championships: SAS in St. Moritz in 2024 and Marden's in 2025 in Klosters. I hope that this annual coming together of ski racing friends, both old and new, continues for years to come and that the AICC helps to sustain the positive momentum in amateur ski racing.

A handwritten signature in black ink, which appears to read "Cleeves". The signature is written in a cursive, flowing style.

PROGRAMME 2023

09.03.2023

- 9.30 SG training slope "Lino Lacedelli" 5 Torri
- 18.30 Club House SC18 Team Captains' Meeting and welcome drink

10.03.2023

- 9.30 SG Race slope "Lino Lacedelli" 5 Torri
- 18.30 Dinner at "Rifugio Faloria" - max 200 person

11.03.2023

- 9.30 GS Race slope "Lino Lacedelli" 5 Torri
- 18.30 Club House SC18 Prizegiving and Gala Dinner

15TH AMATEUR INTER-CLUB TEAM CHAMPIONSHIP

RULES 2023

2023 AICC Cortina d'Ampezzo Championship Rules

Team from each club will ski against each other in two races: a SuperG and a Giant Slalom.

The Giant Slalom and the Super-G will constitute the Championship and will have equal points and will be run in accordance with the following rules:

Entry into the Championship will be restricted to amateur ski racers. For the purposes of the Championship 'amateur ski racer' means:

Anyone who has not, at any time during the 5 years prior to the Championship, had a world ranking higher (better) than 400 in either the Giant Slalom or the Super-G discipline;

Grandfather rule: Anyone who skied in any AICC in 2019 or before, provided that since the 2019 Championship they have not entered a World Cup/Europa Cup/Continental Cup which has caused them to have a World Ranking of 400 or better in either the Giant Slalom or the Super-G discipline. This grandfather rule will apply only to the 2020, 2021, 2022, 2023 Championships.

There will be 4 age categories (age as by year of birth) for men and women, 18-44, 45-59, 60-69, over 70.

For 2022, 18-44 (2005-1979), 45-59 (1978-1964), 60-69 (1963 -1954), over 70 (1953 and before).

Each team in the 18-44, 45-59 and 60-69 categories will consist of 3 or 4 male (men's category) or 3 or 4 female skiers (ladies category) of the same age category. Each team in the over 70 category will consist of 3 or 4 skiers of which no more than two can be men.

It will be possible for a racer to race in a younger age category or for a lady to race in a men's category, but there is no mixed team category under 70.

There shall be no substitutions or additions to team members after the first team member has started the first race.

Clubs may enter up to 8 teams; ideally each Club should enter 7 teams to adequately represent each age category and gender and not more than 2 teams in any category.

The time of each team shall be the sum of the times of the 3 fastest skiers in each race, i.e. one racer's time in each race can be dropped and it need not be the same skier for both races. For details of the calculation, see below.

Race courses to be set by a qualified course setter, but the race piste does not have to be FIS homologated.

The start order will be: ladies' categories and the ladies in an over 70 team before men's categories and older age categories before younger ones. Within each age/gender category, members of each team will be interleaved so the first member of team 1 will be followed by the first member of team 2 etc. for all team in the category, then the second team member for each team will start and so on.

For each of the Super G and GS races, a penalty of 10 seconds will apply for each gate missed, up to a maximum of 3 gates missed. If a racer misses 4 or more gates, he or she will be disqualified from that race.

It is compulsory to wear a suitable ski racing helmet.

The Captain of each team is responsible for his/her team.

Names and numbers of any racers who missed gates, together with the gate number/colour will be displayed on the results board 10 minutes after the last racer has finished. Race times will be published as soon as is practical.

Protests must be lodged by the Team Captain with the Chief of Race within 20 minutes of completion of each event. The Chief of Race will convene an appropriate Jury to hear and determine the protest. The Jury's decision is final.

Prizes will be awarded for the fastest teams in each category (age and gender). If there are sufficient entries, second and third prizes will be also be awarded in each category. "Sufficient entries" is defined as being at least one more than the number of prizes. Additional prizes may be awarded at the discretion of the host club.

Each participant is solely responsible for ensuring he has adequate insurance cover. This insurance should cover emergency medical treatment, mountain rescue and third party liability (also known as Personal Liability) and should not have exclusions relating to ski racing.

The international committee shall not be held responsible for injury to person or damages to equipment, arising from the competition or during practice. The international committee does not accept any liability whatsoever and howsoever caused for any bodily injury; to any person including but not limited to competitors, support teams and third parties, and damage to property.

Medals

Calculation of Results

(Assuming 2 GS runs and one Super-G run.)

For GS: The times of the 3 fastest skiers in first run and the times of the 3 fastest skiers in the second run are added together and then divided by 2 to get the average. For each category, 100 points are awarded to the winning team and each team thereafter is awarded 100 multiplied by the percentage difference. For example, if team 1 is the winner with a time of 60 seconds, they get 100 points and if team 2 have a time of 66 seconds (ie 10% more) they get a score of 110.

For Super-G: The times for the 3 fastest 3 skiers for each team are added together to give the team time. Again, 100 points are awarded to the winner everyone else is scored the same way as in the GS.

The points for the 2 events are added together to get a total team score (it would be possible just to add the times of the 2 events together, but be rebasing to 100 each time it makes sure that both events are of equal importance).

For Super-G: The times for the three fastest 3 skiers for each team are added together to give the team time. Again, 100 points are awarded to the winner everyone else is scored the same way as in the GS.

The points for the two events are added together to arrive a total team score (it would be possible just to add the times of the two events together, but be rebasing to 100 each time it makes sure that both events are of equal importance).

15TH AMATEUR INTER-CLUB TEAM CHAMPIONSHIP

PLEASE NOTE THAT

Each participant is solely responsible for ensuring he/she has adequate insurance cover. This insurance should cover emergency medical treatment, mountain rescue and third party liability (also known as Personal Liability) and should not have exclusion relating to ski racing. Team captains must ensure that all their team members are aware of this.
